DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because it is not directed to a method of cleaning and decontaminating as claimed herein.

Correction is required. See MPEP § 608.01(b).

2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

In the specification, page 1, line 4, after "2001", ", now U.S. Patent No. 6,618,890," should be inserted.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification, as originally filed, does not provide

support for “determining the distance -----;” and “the thickness of the base material is dependent upon the distance between internal working components along the predetermined media path to assure contact with the internal working components ----;” as is now claimed in claim 1.

5. The following is a quotation of the second paragraph of 35 U.S.C.

112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 8,10, claim 2, lines 5, 7, “at least” is indefinite term, it is suggested that the term “at least” be deleted.

In claim 8, “the shape” lacks antecedent basis.

In claims 9, 10, “at least one of said first and second surfaces” lacks antecedent basis.
